Live the nightmare

If you're scared of things that go bump in the night, the storyline in Resident Evil is gonna turn you into a nervous wreck.

This horror tale sees you in pursuit of the ultimate weapon, a soldier called the Tyrant. It's up to you to get inside an eerie mansion and work out what Umbrella's up to.

▲ Your mission takes you to a deserted old house.

▲ A crash comes from deep inside the old mansion. It's time to investigate further.

▲ Now you'll have to test your survival skills as you fight the nasty zombies.

Haunting enemies

To solve the secrets of Umbrella, you'll have to make your way through 120 rooms that'll leave your nerves in tatters.

You'll need to keep one finger on the trigger, 'cos you're gonna meet some vicious enemies. Let's tiptoe into the mansion and take a look at who you'll find...

Zombies

These rotting corpses prowl every corridor and will tear into you if you step too close.

Crows

Keep 'em peeled for these winged beasts. They love to swoop down and peck at your face.

Snakes

Their poisonous bite will take a lot out of you, so avoid these slippery nasties at all costs.

Tyrant

Umbrella's creation is the hardest soldier ever. He moves quick, so you must be spot on.

The main players

You can choose from two sharp shootin' characters in Resident Evil. You'll play as either Chris Redfield or Jill Valentine.

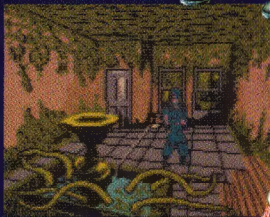

Chris and Jill are both members of the S.T.A.R.S. team, an elite bunch of cops. So let's go and check out the team...

Chris Redfield

Don't mess with this rock hard cop. He's one of the S.T.A.R.S. team's finest marksmen ever.

Jill Valentine

This tough talkin' babe is no push over and can carry more items than her partner Chris.

◀ The dark, spooky mansion holds many secrets. Keep away from the plant or it'll use its tentacles to whip you.

Batter the baddies

To destroy the army of ghouls, you'll have to stock up on the game's cool weapons.

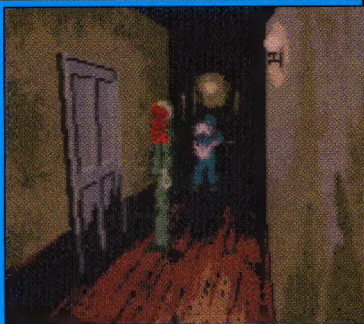

There are loads of quality guns to collect, from the quick fire Shotgun to the awesome Bazooka. So grab what you can, 'cos you'll need them when you face the dreaded bosses.

▲ Jill can carry a smart Beretta Gun from the start of her quest.

▲ You'll have to kill the zombies before they start tearing off your flesh.

▲ Once you've found the Shotgun, you can take 'em out in half the time. You'll have to search for it, though.

Grab what you can

To help you out on your mission, there are loadsa useful items to collect.

If you're running low on ammo, look out for gun clips to get extra firepower. Check every room too, 'cos you'll need keys to unlock doors and open up areas of the mansion.

▲ Jill's a dab hand at picking locks. Use her skill to find loadsa secrets.

▲ As you search through the house, pick up all the items that you can find.

▼ Herbs are worth a look if you're low on energy.

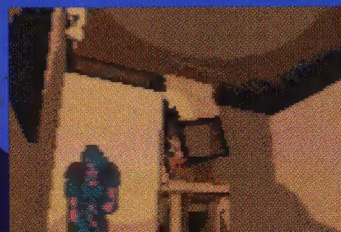

Figure it out

It's not all mindless shooting. You'll also have to get your old grey matter going, too.

The GB game features every puzzle from the GreyStation adventure. Some doors can only be opened with matching keys, and you'll have to move objects to find extra items high up.

▲ But what's that piece of paper on top of the sculpture? Better find out.

▲ Push the steps over and climb up. Good work, you've found the mansion map.

We think...

Packed with scary enemies to blast and tricky puzzles to solve, **Resident Evil** is looking every inch a Game Boy classic. Horror fans are gonna be in for a real treat.

Tomb Raider thrills

Lara Croft is ready for her toughest assignment yet.

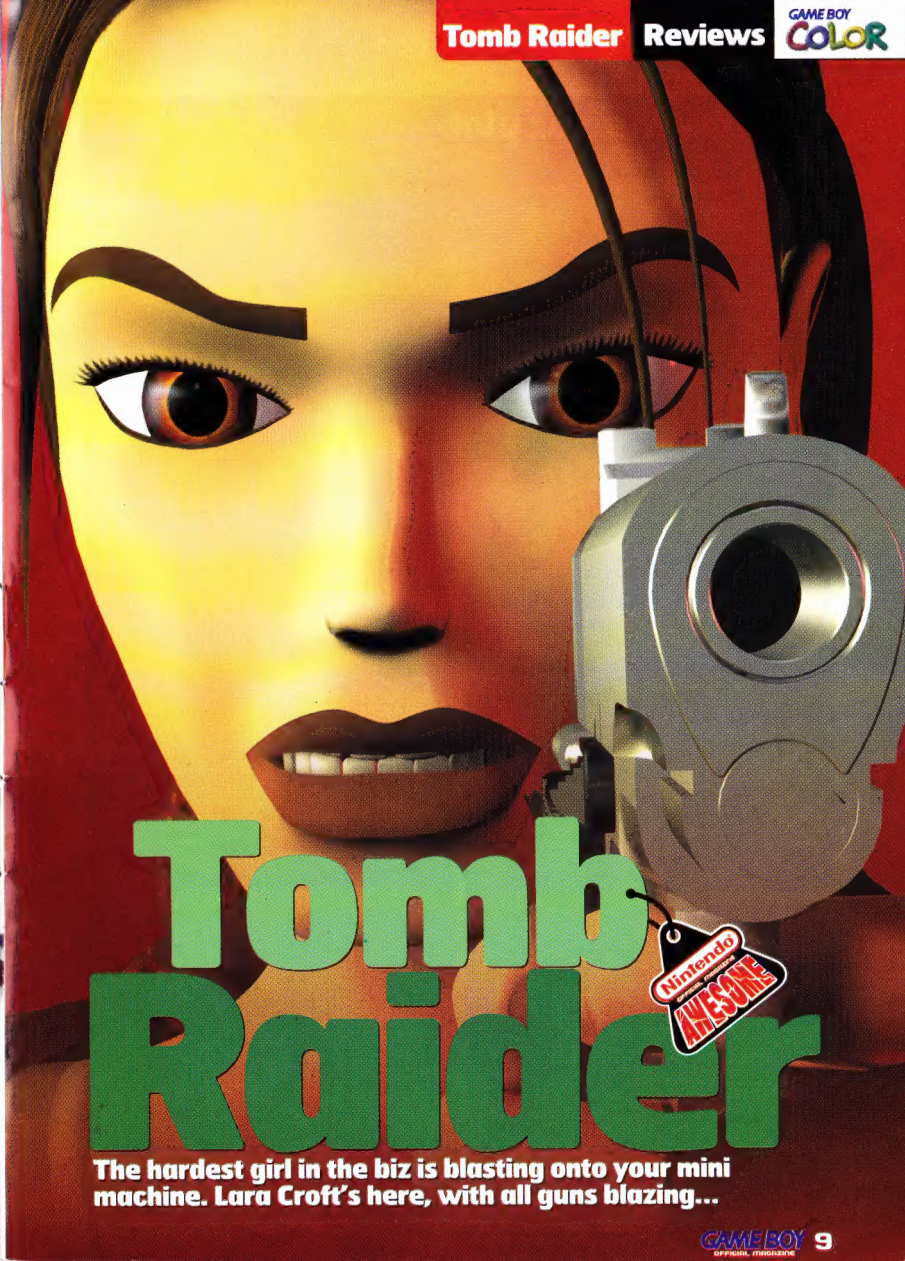

She's out to solve the mystery of the Nightmare Stone before thieves get their paws on it.

You'll need to be quick on the draw across five perilous levels as you gun down baddies such as vampire bats and evil mummies.

► Use all of the lovely Lara's wicked moves to find the Nightmare Stone.

▲ Each level's swarming with nasties, from skeletons to elite soldiers. Gun 'em down!

Tomb Raider

The hardest girl in the biz is blasting onto your mini machine. Lara Croft's here, with all guns blazing...

The mysterious plot

The game takes place in Peru, where the powerful Nightmare Stone is hidden.

The Stone's sealed in a temple, but thieves want the crystal to exploit its magical powers.

Lara's found the temple but no signs of life, so enter the unknown and find out what's going on.

▲ You'll have to fight your way from Royal Tombs to the Aztec Dam.

▲ The levels are full of booby traps to dodge and puzzles to work out.

▲ The magical stone's hidden somewhere in the heart of Peru, and it's your job to find it.

Puzzle solving

Lara's adventure will see you using brain as well as brawn to uncover the Stone.

Not only will you have to blast enemies with your two six shooters, you'll also get to search every nook 'n' cranny for extra goodies.

Sticks of dynamite and keys are scattered throughout the levels and you'll need 'em to unlock hidden areas, so get hunting.

▲ To drop down to lower levels, you'll need to find a switch.

▲ Find the lever and pull it down to open up the hidden area below.

Super moves

Lara must explore dark 'n' dingy tombs, treasure rooms and even underwater.

On each level, you must find a piece of the altar that protects the Stone, so keep 'em peeled.

To solve all the game's puzzles, Lara can pull off some stunning moves. Let's have a look...

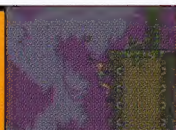

Shooting

Press **A** to get your guns blasting. You can even hang one handed off cliffs and shoot at the same time.

Jumping

To clear giant ravines and land safely on the other side, hold **B** to run and push **A** to leap off in style.

Climbing

Thanks to Lara's great head for heights, you can climb walls, grab ledges and swing across pits with ease.

Swimming

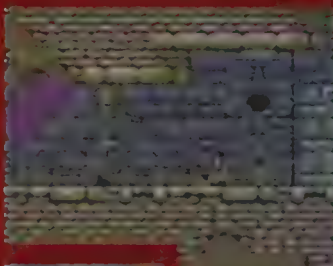

Don't forget to pack your swimsuit, 'cos Lara will have to go for a dip. Watch your air level, or you'll drown.

Scary baddies

Tomb Raider is jam packed with enemies to shoot and bosses to blast to pieces.

As you dodge the traps, you'll have to slay sword-wielding skeletons and nasty cave-men.

You'll also face loadsa deadly creatures, from poisonous snakes to vicious scorpions.

- ▲ Scorpions scuttle through each stage. Stay away from their tails!
- ◀ Keep your gun loaded, 'cos groaning mummies will try to kill you.

► Mystical sorcerers are hidden deep in the Royal Tombs. Shoot 'em before they blast fireballs straight at our heroine.
